PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on production experience building scalable web and mobile applications using React.js, Next.js, Node.js, Nest.js, and React Native. Proven ability to develop real-time features, integrate third-party APIs, and manage cloud-based backends with Google Cloud Spanner. Adept at responsive UI/UX design, RESTful API development, and GitHub-based version control and collaboration to deliver impactful, maintainable software.

TECHNICAL SKILLS

Languages: Java, C, SQL

Frontend: React.js, Next.js

Backend: Node.js, Nest.js

Mobile: React Native – Cross-Platform Development (iOS & Android)

Cloud & Tools: Google Cloud Platform (Spanner, API Keys), Firebase, AWS (Basics)

Version Control & Workflow: Git, GitHub, Bitbucket, Jira

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern – Soft Suave

Oct 2025 – May 2026

- Developed and optimized responsive user interfaces using Next.js and React Native, ensuring seamless user experience across web and mobile platforms.
- Built and maintained scalable backend services with Nest.js, implementing REST APIs and efficient server-side logic for production-ready applications.
- Worked with cloud-based databases and services, including Google Cloud Spanner, to manage application data with high availability and performance.
- Contributed to code reviews, debugging, and deployment processes in collaborative team environments

PROJECTS

Pet Development Application

React.js | Node.js | REST API

- Developed a full-stack web application managing 500+ pet profiles, health records, and vaccination schedules with JWT authentication and role-based access control.
- Built 15+ reusable React.js UI components and integrated RESTful APIs, reducing development time by 30% through modular, reusable design patterns.
- Deployed a scalable Node.js backend supporting 100+ concurrent users with consistent response times under 200ms across all API endpoints.

Expense Calculator – Mobile Application

React Native | Cross-Platform (iOS & Android)

- Built a cross-platform expense tracking app with 10+ spending categories, full CRUD operations, real-time totals, and monthly budget summaries for iOS and Android.
- Designed an intuitive UI with date filtering and visual spending charts, validated by 20+ users and recognized for ease of use and clear financial insights.
- Optimized state management and rendering, reducing app load time by 35% and ensuring smooth performance across 2 platforms (iOS and Android).

EDUCATION

B.E. Computer Science & Engineering

2026 | CGPA: 7.72

Rathinam Technical Campus, Coimbatore

Higher Secondary Certificate (HSC)

2022 | 91.5%

Reliance Matriculation Hr. Sec. School, Namakkal

Secondary School Leaving Certificate (SSLC)

2020 | 97%

Vani Vidyalaya Matriculation Hr. Sec. School, Namakkal

CERTIFICATIONS

DataCamp: Intermediate Java | Intermediate SQL | Intermediate Git
